	(解答例2) I believe sustainable travel poses several challenges for typical travelers. Packing light might mean having to give up some comfort and convenience. Recycling requires actively searching for proper disposal methods or facilities, which could be especially difficult in a new environment. Also, certain disabilities or health conditions could make walking or biking impractical. (53 words)
	(解答例3) I think the principle of “Stay Green” poses a challenge because greenwashing makes it tricky to identify truly eco-friendly options. Certified eco-lodging may be scarce.
